

Médís Dental

There is a new
way of thinking
about health.

And a new
Médís that
thought
about
everything.

Médís Dental

An insurance that is easy to take out and use, promoting prevention and oral health.

At Médís we believe that Health should be designed across 360°, and each person can benefit from a Personal Health Service that is more complete, simple and digital.

Because it's when we least expect it that it's good to have an insurance on our side that has thought about everything.

Médís Line

Nurses available by telephone 24h per day, 365 days per year. A permanent service of information, advice and referral of healthcare.

Linha médís 218 458 888

Description of the funded acts

Application of dental sealants (by quadrant) - Application of liquid resin on the masticatory surface of teeth to prevent tooth decay: one unit every 2 years is funded up to 18 years old;

Topical application of fluorides - Application of fluorides to prevent tooth decay: pursuant to good clinical practice, one unit every 6 months is funded;

Bimaxillary removal of calculus - Dental cleaning: pursuant to good clinical practice, one unit every 6 months is funded;

Sodium bicarbonate jet cleaning – jet spraying of high-pressure water combined with air and sodium bicarbonate onto the surface of teeth to remove tartar and plaque;

Orthopantomography - X-ray enabling an overview of the jaws and teeth: the Insurer pays one orthopantomography per annuity;

Restorations - Treatment of damaged teeth, restoring their form and function: the Insurer paying two restorations per annuity

Pulpal protection – application of a medicinal product of cavity liner to preserve tooth vitality;

First Session of Endodontics - Devitalisation or root canal treatment, which consists of full removal of the pulp and dental nerve: the Insurer paying one devitalisation per annuity;

Follow-up endodontics – total removal of the dental pulp and root canal treatment;

Extraction of deciduous tooth - Extraction of milk teeth: unlimited;

Description of the funded acts (cont.)

Tooth extraction with odontosection and osteotomy – surgical tooth extraction (minor surgery);

Extraction of multiradicular teeth – extraction of teeth with more than one root;

Extraction of monoradicular teeth - extraction of teeth with a single root;

Implantology study pack – Study made before the customer places a dental implant. This study includes a dental medicine appointment, study of rehabilitation with implants and study models

Orthodontics study pack – Study made before the customer places the dental brace. This study includes a dental medicine appointment, orthodontic study models, cephalometric analysis, teleradiography and photographic study.

Control of fixed brace - 6 controls of fixed brace are funded during 2 years (maximum of 3 controls per year). The funding begins when the 1st control of this brace is done in the Médis Dental network;
